Axiom® worktops
the heart of the kitchen

Axiom by Formica®,
the UK and Ireland's
leading kitchen

worktop and
accessories range,
offers the ultimate
choice of designs,
textures and materials
to create the dream
kitchen.

Axiom® worktops the heart of the kitchen

DESIGN

The Axiom by Formica range has been developed in response to trends in kitchen and interior design and offers a wide variety of looks for the design-conscious consumer. Offering over 70 different designs, the refreshed range includes new colours and fresh twists on design classics.

TEXTURE

Tactile qualities are as important as colour and design when choosing a worktop, in order to give your kitchen a natural looking finish. With eight laminate textures in the Axiom by Formica range, a complementary finish is available to suit each worktop design, including the exclusive new texture Lustre.

MATERIAL

Choosing the best material for the kitchen is a crucial design decision. The Axiom® Signature range contains a choice of premium laminate textures and other worktop materials, from sleek, modern Solid Surfacing to the natural style of real Solid Wood.

Lustre

Lustre, a new and unique texture, captures the translucent effect of quartz particles found in natural stone.

Axiom® Shapes

Axiom Shapes, the unique concept in kitchen design that offers specially developed modular shaped worktops to give ultimate flexibility in creating the perfect kitchen. Use Axiom Shapes worktops for multi-level work surfaces, both horizontally and vertically, that will bring depth and dimension to your kitchen, whatever the shape or space.

Circular (R2)
600 diameter x 40mm
Available in all designs

Circular (R5)
900 diameter x 40mm
Available in all designs

Rectangular (R1)
1200 x 940 x 40mm
Available in all designs

Bowed (R3)
1600 x 800 x 40mm
Available in all designs

Square Edged (R4)
3600 x 650 x 40mm
Available in Serene, Basalt Slate and Travertine

Square Edged (R4)
4100 x 650 x 40mm
Available in Everest, Wenge Butcher Block and Walnut Butcher Block

Axiom Shapes worktops are laminated on both faces and pre-edged on all sides, making installation quick and easy - just cut to shape and install.

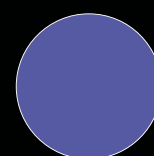

How to order your Axiom Shapes worktop

When you make your order please quote the code for the design you require and the code for the shape you require.

For example, to order a Basalt Slate 600mm Circular worktop, the order code would be PP3690AHD R2.

Guide to selecting your worktop

Material

A choice of laminate, Solid Wood and Solid Surfacing worktops offers distinct variety in looks and style. Each material has its own inherent qualities and characteristics to allow you to choose the perfect material to suit your style of interior design and to create the kitchen of your dreams.

Design & Colour

To complement and enhance the look of your kitchen, the Axiom by Formica worktop collection offers a comprehensive range of designs that cover all major kitchen trends. Granite, marble, wood, stone, plain and subtle pattern designs are all available and an extensive range of colours provide worktop options to suit all schemes and cater for all tastes.

Texture

Texture adds substance to the look of a design. When making your selection take careful note of which textures the design is available in, helping you achieve the exact look you desire. From gloss worktops for a clean and modern look, to a Honed texture that emulates the look and feel of brushed stone, your worktop will not only look good, it will feel good too.

Profile

Subtle differences between worktop edge profiles can dramatically impact the look of your kitchen. Worktop designs are carefully matched with the appropriate profile to further enhance the look of the worktop. Worktops are available with curved, angular and square edged options. Check full range listing to identify the profile each design is available with.

Size & Layout

Once you have selected your worktop, it is important to take special note of available sizes, as these can vary across different materials and textures. To offer greater flexibility and to add a new dimension when designing your kitchen, breakfast bar options are available for a large proportion of the range in a variety of sizes, also a new range of modular shaped worktops add multi-level applications.

Finishing Touch

Select from a range of Splashbacks and Upstands handpicked to co-ordinate with best selling Axiom worktops. Simply install your Splashback or Upstand to extend your easy to clean, hygienic kitchen work surface, creating clean lines between your wall and worktop.

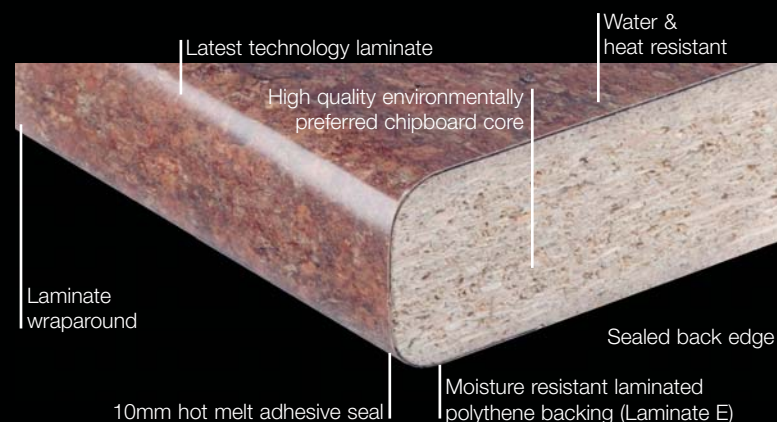

Profiles

Axiom worktops are available in three distinct profiles; Linea, Eclipse and Axiom Shapes. Please refer to the table on page 36 for availability.

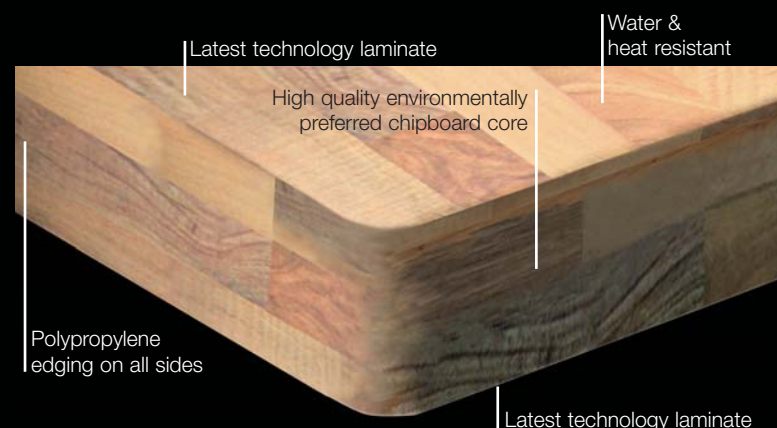

Linea A modern angular profile that emulates the authentic shape of natural materials.

Eclipse Gives your worktop a subtle curved profile.

Shapes A range of shaped worktops with a square edge profile.

Quality guaranteed

Lifetime guarantee

As the UK's only manufacturer of high pressure laminate, Formica Limited is the only company that can offer a lifetime guarantee on its range of laminate worktops. This guarantee covers any laminate worktop found to be defective in either material or manufacture from the date of installation.

Due to the properties of gloss laminate we are unable to accept performance responsibility for this decorative surface.

Colour and surface finish should be compatibility checked before fitting as we cannot accept claims for re-fitting resulting from a mis-match of colour or surface finish.

Quality assured

All Axiom worktops are strictly manufactured in accordance with British and European standards to ensure they meet exacting modern kitchen requirements. Specific features incorporated into the worktop increase their resistance to heat, impact, moisture and scratching (excluding gloss).

For over 10 years the Axiom range of domestic kitchen worktops has achieved the ultimate mark of product quality – the FIRA GOLD AWARD. Assessed by the Furniture Industry Research Association, in accordance with British and International standards for all aspects of workmanship and 'fitness for purpose', it brings the assurance that this product has been manufactured to the highest standards.

Gloss worktops

All gloss Axiom worktops (AB61) benefit from the unique 'ar plus' laminate technology, which gives enhanced wear and scuff resistance compared to all other gloss laminates. Gloss surfaces do scratch more easily so additional care must be taken.

Solid Surfacing worktops

Formica Limited offers a lifetime guarantee on its range of Solid Surfacing worktops. This guarantee covers any Solid Surfacing worktop found to be defective in either material or manufacture from the date of installation.

A Solid Surfacing worktop is constructed from 6mm thick Solid Surfacing sheet material bonded to moisture resistant chipboard. Axiom Solid Surfacing worktops are supplied with a factory finish, which must be sanded and polished after fitting, as described in the instructions supplied with each worktop.

Solid Wood worktops

Axiom Solid Wood worktops come with a 12-month guarantee valid from the delivery date which covers all defects related to the production of the worktop. However, it does not cover incorrect treatment, maintenance, storage or installation of the worktops.

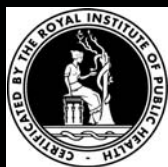

Solid Wood worktops are supplied un-oiled. The worktops will need several coats of oil to help protect the natural wood. The oil will affect the overall colour of the wood. Full instructions on oiling will be included with the worktops.

Upstands & Splashbacks

Axiom laminate upstands and splashbacks carry a 10-year guarantee. This guarantee covers any upstand or splashback found to be defective in either material or manufacture for up to 10 years from the date of installation. Gloss and aluminium surfaces do scratch more easily so additional care should be taken on installation. We are unable to accept any responsibility for the scratching of these products.

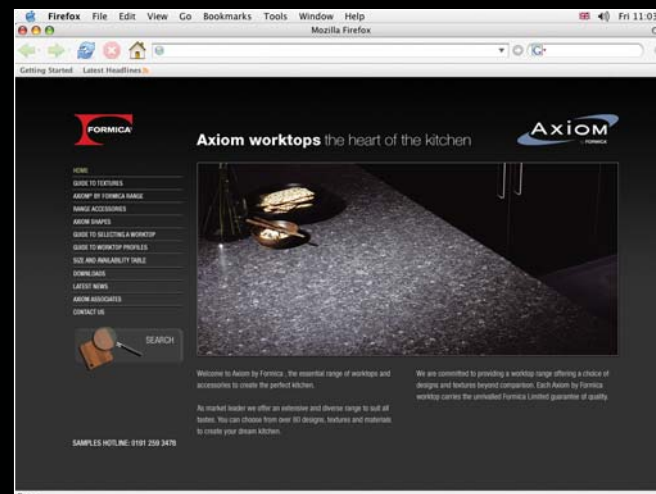

Certificate No. Q09648

Customer Service

The Axiom by Formica website is the ultimate resource to help you select a worktop.

www.axiomworktops.com

The website includes the following features:

- Latest news and updates
- Large downloadable images of each design
